**YARD ART...
AND MUCH MORE!**

Let Us Bring Your Ideas to Life.

We have the ability to make just about anything out of metal. We are a family-owned business located in the town of LeRoy, Wisconsin, approximately 7 miles west of Lomira.

Bent Outa Shape LLC provides custom fabrication and metal art to fit your needs. Our products are cut from 20 gauge to 1/2-inch plate, stainless or copper. These can be left as raw steel, primed or painted.

Your personal design can be cut to any shape and size. Names, and other items, can be introduced into almost any metal art cutting as a personal touch, for a more personalized gift for the special someone in your life. Simply provide us some details of what you are looking for and we can bring your project to life. No two pieces are ever the same. While working on your project, your project is the most important thing we are focusing on.
